

APPENDIX A

THE DESBARRES GRANT

August 25, 1765. To all whom these presents shall come, Greetings. Know ye that I, Montague Wilmont, Esquire Captain General and Governor in Chief in and over His Majesty's Province of Nova Scotia or Acadie and its dependencies, vice Admiral of the same etc. By virtue of the power and authority to me given by his present Majesty King George the third and under the great seal of Great Britain and pursuant to the order of His Majesty in Council Dated the 11th day of July 1764 have Given, Granted and Confirmed unto Joseph Frederick Wallet DesBarres, Esq., his heirs and assigns a Tract of land situate, lying and being beginning at the Eastermost Point of a Creek in the river or Harbour John, thence Running South 480 chains on ungranted lands, thence west 15° north 480 chains on ungranted lands, thence north 12° West, 530 chains on ungranted lands to a point on a stream near the head of Tatamagouche Bay thence back as the shore runs to the before mentioned boundaries, containing in the whole by estimation, twenty thousand acres with allowance for roads etc. according to the plan hereto annexed, with all and all manner of minerals unopened, excepting mines of gold silver and coals* to have and to hold said granted premises with all privileges, profits, commodities, and appurtenances there unto belonging unto the said Joseph Frederick Wallets DesBarres, his heirs, assigns forever yeilding and paying by the said grantee his heirs and assigns which by the acceptance hereof he binds and obliges himself his heirs, executors and assigns to pay to His Majesty George the third his heirs and successors or to the Commander in Chief of the said province for the time being or to any person lawfully authorized to

*It is to be noted that copper is not reserved to the Crown. This is an unusual provision as in nearly all other grants the Crown reserved all copper ores. We do not think that this provision in DesBarres's grant was the result of chance. He was evidently aware of the indications of copper on Waugh's and French Rivers and saw to it that this unusual provision was inserted in the grant. The result of it is seen very plainly during recent years. Land owners on the DesBarres grant having acquired the rights of the original grantee have sold their rights in copper mines to some of the various companies which at one time or another during the last forty years have been working the mines. Owners of land granted by the Crown under the ordinary provisions acquired no rights in the copper and have found that the companies by obtaining a lease from the Crown were at liberty to remove all the copper ore from the premises.

receive the same for his Majesty's use, a free yearly quit rent of one shilling†—fathoming per acre for one half of the granted premises within five years from the date hereof the whole to be payable within ten years from the date of the grant and so to continue yearly here after forever and the said grantee binds and obliges himself, his heirs and assigns annually to plant five acres of the said land with hemp† and to keep a like quantity of acres planted during the successive years and the Grant here by made is upon this further condition that if said grantee shall not settle the said grant of land with Protestant settlers in the proportion of one person for every two hundred acres within ten years from the date herein then this grant is to revert to the Crown, and the Governor.
