"THE CANARY MURDER CASE"

Oratorical Contest Excites Keen Interest

Many from Coleman Attend and
Enjoy Fine Addresses by Lillian Drew and Megan Jones

The oratorical contest at Blairmore last Friday evening excited keen interest and most of the high of the judges to continue her school pupils from Coleman, with school members of the school board and students attended to give their support to Coleman's representative, Megan Jones, who was competing against Lillian Drew, of St. Michael's school, Pincher Creek. Miss Drew was drawn for first, and the subject of both contestants was "Canada Among Nations." A very comprehensive review of Canadian history was given by Miss Drew in the ten minutes allotted under the rules of the contest, from the early times of Jacques Cartier to the present day, and her experience as a competitor in last year, when she won the district contest, was a valuable asset in her second appearance. Miss Jones dealt almost exclusively with present-day affairs of Canada as a nation, giving her address in a most convincing style, but lacking to some extent the light and shade which characterized Miss Drew's presentation. But it was a very practical address, and both contestants wanted no words in the brief time allowed. In fact it was a matter of favorable comment that such a wealth of information could be given in such a brief space of time. The Rev. Fr. Donovan, one of the judges, gave a very entertaining review of the reasons for adjudging Miss Drew the winner, and complimented both young ladies for their effort. He deplored the fact that the boys had not taken part in the contest, and felt that it was a shame that it had been left to the girls to represent the Macleod inspectorate. He urged parents to see that more interest was taken by the boys, for nothing so quickens interest in any subject as to prepare an address or engage in a debate. The other two judges, Rev. Roy Taylor of Hillcrest, and Inspector Bremner, made brief remarks. Wm H. Chappell as chairman thanked the contestants and the judges, also the young ladies and the Upton trio who contributed to the musical portion of the evening's program. The program included the following: The Upton trio, violin, cello and piano; Joe Jasbech, violin, accompanied by Miss Madeline Chardon. Blairmore correspondent of the Lethbridge Herald reports as follows: "Both of the young orators held the rapt attention of the audience throughout, Miss Drew having a particularly attractive platform game some very interesting number address in a straightforward, hard hitting manner. In the marks of the judges it would appear that the winner gained a little more advantage over her competitor by first developing a good background

for her address and later producing verbal portraits of the subject matter and drawing them skilfully into the established background; she was also given special credit for good use of gestures and poetical rhetoric, while Miss Jones was credited with giving a splendid businesslike and logical address but lacking somewhat in posture, poetry and variation. Miss Jones was advised by one of the judges to continue her study and try again for oratorical honors, specially commenting on the distinct and deliberate style of her address, and giving special credit for the manner in which the young speaker had emphasized Canada as the leader of all the nations in striving for the peace of the world. The applause of the audience testified that the results were given would indicate that the verdict of the judges was not a popular one with those who were present; the delicate and forceful manner of the address of Miss Jones apparently winning the approval of the majority of the audience. The delicate and forceful manner of the address of Miss Jones apparently winning the approval of the majority of the audience.

Funeral Held on Saturday

The funeral of Agnes Marion, infant daughter of Mr. and Mrs. A. B. Westworth, was held last Saturday afternoon, the service being conducted at the home by the Rev. H. J. Bevan. Miss Maisie Gillespie, sister of Mrs. Westworth, came from Vancouver to attend the funeral, returning early this week.

Card of Thanks

Mr. and Mrs. A. B. Westworth desire to thank their friends for expressions of sympathy in their bereavement and also Dr. Borden for his kindness during the illness of their child.

Flowers were sent by the following: Mother, Dad and Arthur, Grandma, Grandad and Maisie, Mary, Nettie and Peggy Gillespie, Mr. and Mrs. Jack Rogers, Mr. and Mrs. O. Smith, Mr. and Mrs. R. Thomas, Mr. and Mrs. A. Short, Mr. and Mrs. H. McLeod, Mr. and Mrs. J. A. McDonald, Mr. and Mrs. E. D'Appolonia, Mr. and Mrs. W. R. Godfrey, Mr. and Mrs. J. Shields, Pythian Sisters, Mr. and Mrs. Geo. Short, Mercoal.

Youthful Performers at Mrs. Salt's Recital

At the recital held on Monday last week in the K. of P. hall, the following took part: Ralph Rippon, Peggy Gillespie, Dick Borden, E. Jones, Vivian McLeod, Boh Glendenning, Lorraine Rippon, Lorna Balkwell and chorus, Agnes Truba and chorus, Prue Borden, John Holyk, Eileen Jones and Lethbridge Herald reports as follows: "Both of the young orators held the rapt attention of the audience throughout, Miss Drew having a particularly attractive platform game some very interesting number address in a straightforward, hard hitting manner. In the marks of the judges it would appear that the winner gained a little more advantage over her competitor by first developing a good background

"The Canary Murder Case" is a mystery play which will interest the most hardened movie fan, and it will be shown at the Palace on first developing a good background March 15 and 16.

International Coal & Coke Company, Limited

NOTICE IS HEREBY GIVEN THAT the Annual Ordinary General Meeting of the International Coal & Coke Company, Limited, will be held at the office of the British American Securities, Limited, Bank of Montreal Building, Granville & Pender Streets, Vancouver, British Columbia, on Thursday, the 28th day of March, 1929, at 10 o'clock in the forenoon, to receive the Directors' and Auditors' ordinary Reports, together with the Statements of Accounts referred to therein, to re-elect Directors, to re-elect Auditors and vote their remuneration, and to transact such other business as may be properly transacted at an Ordinary General Meeting of the Company.

The Share Transfer Books of this Company will be closed from Monday, the 25th to Thursday the 28th day of March, 1929 (both days inclusive) preparatory to the above mentioned Meeting.

Dated this 7th day of March 1929.

By order of the Board,
H. V. HUMMEL,
Secretary.

Coleman, Alta.

A word from the publisher... about advertising

The products you see consistently advertised in this paper are worthy of your confidence.

It takes two things to make a consistent advertiser. One is a strong conviction that he has a product that will hold its place in public favor despite competition. The other is actual proof of that... the increasing popularity of his product.

If his product will not stand the test of comparison he would simply be throwing his advertising investment away. If the buying public rejects his product after it has been offered in advertising he has thrown his advertising investment away.

That's why the manufacturer who advertises his merchandise consistently is very sure of his quality... and why you may be sure of it, too.

Read the advertising here in your newspaper... it will guide you to the buying of worthy merchandise.

Westminster Glee Singers Chalmers-Wheatley Wedding Last Friday

There is nothing more fascinating in the whole realm of music than the human voice, and when this is utilized without instrumental accompaniment, one gets the very perfection of musical beauty. The Westminster Glee Singers specialize in this most attractive form of art; they sing the whole of their programs from memory; their repertoire consists of over 150 examples of part-music, ranging from the simple part-song to the madrigal and glee, with occasional anthems and Christmas carols, in addition to a most interesting series of solos with an accompaniment of voices. Especially are they noted for the very perfection of ensemble; and their soloists, both boys and men, rank with the finest that Great Britain can produce. Tuesday, April 9, is the date of their appearance here, and notice will be given as soon as the seating plan opens.

Former Member of Shamrocks Is Married to Business Men of Banff at Her Home Here

A very pretty wedding of much interest took place at the home of the bride's mother, Mrs. J. S. Chalmers, on March 1 at 7:30 p.m., when her daughter, Wilhelmina Wheatley of Banff, son of Mr. and Mrs. Frank Wheatley, 531 13th Ave W., Calgary. The Rev. H. D. Bevan officiated at the ceremony. The bride entered with her brother-in-law, Mr. George Reid, to the strains of the wedding march played by Mr. John Morrison, and the ceremony was performed under an archway of wedding bells and flowing streamers. The bride was dressed in a pale blue georgette dress with lace trimmings, and carried a bouquet of roses. The bridegroom, Miss Dulcie Richards, was dressed in a pale blue de chene dress, and carried a bouquet of pink carnations. The bridegroom was attended by Mr. Alexander Hunter Chalmers. Fifty guests partook of a sumptuous wedding supper, the table being decorated with cut flowers, and the bride's table was centered with a 3 tier cake. A toast to the newly wed was given by Mr. John McJohn McCutney, which the bride graciously responded to. The evening was spent in dancing.

The bridal couple went to Calgary for the honeymoon, and they will live at Banff, where Mr. Wheatley owns a mine. Their many friends join in wishing them prosperity in their new venture.

West Has Priceless Heritage

Saskatchewan might be termed the epitome of Canada's Great West. No other Province has a more interesting population, for the fabric out of which that population has been woven contains threads of so many racial cultures. Of the eight hundred and seven thousand souls recorded in the census of 1926, three-fourths are of British descent with English and Scots blood predominating. Over half a million were born in Canada, and of these a small but notable sprinkling are of French-Canadian descent. Ninety-eight thousand were born in the British Isles. Continental Europe has added twenty-two racial strains of which the larger groups may be summarized as Slavonic (55,000), Scandinavian (20,000), Teutonic (20,000) and Romance (14,000). The aboriginal Indian population numbers about 15,000. Each of these racial groups can contribute something to Canadian art and music, for each has its traditions of handicraft and folksong, traditions which represent an inherent love for beautiful things and a love of melody. Folksong is intimately linked up with handicraft, for it is to the accompaniment of folksong that the spinning wheel turns and the beautiful homespun fabrics are woven. These fabrics can never be duplicated by the factory-made article, and the efforts of the Canadian Handicrafts Guild to find and retain a market for the craft-work which can be done during the winter months on the farms of Western Canada is therefore well worthy of support. This Guild is preparing a handicraft exhibit in connection with the Folksong and Folk Music Festival which the Canadian Pacific is organizing to be held at Regina, March 20-23rd, as the inauguration of a Saskatchewan branch. The main idea of this Great West festival is to help Canadians to realize the priceless heritage which they possess in the traditional melodies which have been brought to this country by immigrants, and in some cases have been composed in this country by early settlers. The field of folksong is so immense that only a glimpse of it can be secured in the four days of this particular festival, but some of the greatest artists of the continent will render interpretations and it promises to be a feast of music and color. Poul Bai, the Danish baritone will feature in Norse music, Charles Marchand in the French-Canadian folksongs and almost every nation will be represented in handicraft as in song. Above it is seen a Slovak weaver who will remove his pipe and sing to his handwork.

The Red Rose Tea guarantee means what it says. If not satisfied return the unused part in the package and the grocer will refund your money.

RED ROSE TEA "is good tea" RED ROSE ORANGE PEKOE is extra good In the best package—Clean, bright aluminum

Radio Broadcasting In Canada

The Canadian Government recently appointed a Royal Commission to study and make report on the whole subject of radio broadcasting in Canada.

The importance of this Commission's work can hardly be overstated. Radio has, in a few short years, come to occupy a vital position in the lives of the people, while the future possibilities of this newest form of entertainment, and its importance as a means of publicity, are such that the national interests demand that a well defined policy in the interests of all concerned, but more particularly in the interests of the Dominion itself, be developed with the least possible delay.

The question that naturally arises in the minds of patriotic Canadians is whether or not the radio in Canada is to be dominated by wealthy and powerful private interests in the United States, just as the moving picture business has been, or whether Canada will itself develop an acceptable system of national broadcasting.

It has to be recognized and accepted as a fact that the great United States moving picture corporations control the situation in Canada, if not through actual ownership and management of Canadian moving picture theatres, at least through the making and distribution of the films that are shown in this country.

To a large extent the same situation has developed through the enormous circulation which United States magazines and periodicals of all kinds have secured in Canada. Apart from the effect which the reading matter in these periodicals has upon Canadian thought, the advertising matter constitutes a powerful agency attracting millions of Canadian dollars across the line for the purchase of United States products.

In Great Britain radio broadcasting is under the direction of the Government through the medium of a national broadcasting organization. Owners of receiving sets pay a license fee, and the money thus realized is expended in providing worthwhile programmes. In the United States, on the other hand, broadcasting is in the hands of private interests.

It is not necessary to be anti-American, or in the slightest degree unfriendly to the United States, to nevertheless realize that this is not a good thing for Canada in a national sense. Our Canadian broadcasting stations are widely scattered over the Dominion. They have not the broadcasting power of the big U.S. stations. Nor have they the resources to finance the same type of high class and expensive programmes offered in the United States.

Furthermore, do the Canadian people prefer private control of radio broadcasting, financed on the basis of advertising, to the system which finds favour in Great Britain of national broadcasting financed through the payment of a reasonable annual license fee by owners of receiving sets who are the real beneficiaries of the broadcasts?

The influence of radio must be admitted. It already occupies a position along with the newspaper and the moving picture as a medium of information and a source of education and entertainment. It is here, and here to stay, to grow, to develop and perhaps few even now imagine, it will be a power for tremendous good or evil. It is essential that Canada, not neglecting the opportunity it presents, should adopt a wise policy in regard thereto.

Many Divorce Cases

With a marked increase in petitions within the past week the senate divorce committee has the largest accumulation of divorce cases in history. The number so far is 214, with 188 from Ontario and 26 from Quebec. Wives seeking divorce in 121 cases and husbands in 93.

Covered Everything

Candidates for political office, successful or otherwise, who are recruited by law to file campaign expenses returns, may be interested in this particularly succinct one filed in Massachusetts: "Paid nothing, promised nothing, got nothing."

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

At the Paris law courts there is an old lady of 80, who has been employed for the last 50 years as shorthand writer, and is still active.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain, sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you can get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Canada's Climate Attractive

Even Winter Weather is Enjoyed By Majority Of People The Montreal Star says: "It has been the fashion for many years to quote Canada as a wintry land. The habit has persisted, despite the actual facts regarding our climate, which probably presents the widest latitude in conditions of any country in the world today. But just now Europe is having a taste of what a really hard winter can achieve. Steel bridges have been cracked in two by Arctic temperatures of a severity almost unknown in modern records. Shipping in the north is icebound, and even the Black Sea is beginning to freeze over—an event unrecorded within living memory. Now if the people who are at present suffering so acutely were in Canada, they would be enjoying themselves. We have not been attacked by an unpropitious cold weather, and the general conditions that obtain out the country have not been such as to cause any discomfort. Indeed, there is good ground for utilizing, as a attractiveness of our climate as a drawing card for intending immigrants, instead of frightening them with lurid pictures of winter of an Arctic character. A little more truth, and a little less border rubbish, would help immigration better than lantern slides and flaming posters on the walls."

CORNS Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extract, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so simple, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extract, the one sure relief for sore corns. Sold at every drug store.

Peace River Settlement

A Million Acres Of Land Taken Up By 5,000 New Home-owners Approximately one million acres of land were taken over last year by 5,000 new home-owners in the Peace River country. The Rt. Rev. E. F. Robbins, D.D., Bishop of Athabasca, stated in an address before the Empire Club at Toronto, "Peace River is the country that will bear it," he said. "I fancy it will bear it for about 20 years at that rate."

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in declining health. In condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight in the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily the color returned to my cheeks and lips and I felt a new interest in life. I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50c. Try them today.

Where Nobody is Young Nobody is young in the little village of Bursledon, Hampshire. The inhabitants boast that their aggregate age, in proportion to the population, is the highest in the country. There are twenty-seven old folk whose years total 2,115—an average of seventy-eight each. Once Bursledon was a thriving community, but now strawberry growing is the only industry. All the young people have left for more fruitful fields.

A Power Of Its Own. — Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Use Minard's Liniment for the Flu. W. N. U. 1775

Papered With Postage Stamps

Inn Near Bogner, England, is Known As Stamp House. Near Bogner, England, the King has been removed for his convenience, there is an inn known as Stamp House. Its walls and ceilings are completely papered with old postage stamps, and festoons of them are looped from one side of a room to the other. The "collection" was started many years ago by a former host of the place, who had a passion for stamps, and papered his first room with them. It is believed as a result of a wager. Under the mellow varnish there must now be hundreds of thousands; and report has it that many in semi-hidden corners are rare and valuable.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when souring water in a clogged digestive tract is forming gas, making them colicky, constipated and miserable. Just try the method doctors endorse, and millions of mothers know, and see how drawing card for intending immigrants, instead of frightening them with lurid pictures of winter of an Arctic character. A little more truth, and a little less border rubbish, would help immigration better than lantern slides and flaming posters on the walls."

Recipes For This Week (By Betty Barclay)

- NEW YORK SALAD 4 slices pineapple. 1/2 cup celery. 1/2 cup nuts chopped. 2 oranges. Cream mayonnaise. Lettuce. Arrange slices of pineapple on nests of lettuce leaves. Cut celery in slender strips, one and one-half inches long, and mix with nut meats. Finely chop of pineapple, and garnish with four sections of orange, free from membrane, laid symmetrically on pineapple. Pass dressing separately.

BOILED CAKE FROSTING

- 1 cup sugar. 1/2 cup orange juice. 1/2 cup cold milk of one orange. 1 egg white. In a smooth agate saucepan put sugar and orange juice and mix, well, and boil, being careful not to stir. Continue beating until a long thread when it drops from the tip of spoon. Lift gently from fire and pour slowly, while beating vigorously with a strong egg-beater, in a fine stream onto egg white which has been beaten until light but not stiff. Continue beating until frosting is stiff enough to stay in place, pour all at once onto cake and spread over surface with a few movements of a large, flat knife. Minard's Liniment prevents Flu.

Standards Of Greatness

Wealth Or Titles To Judge Of An Individual's Pre-eminence The mind of the average American is a curious mixture of materialism and idealism, and we must bear those qualities in mind when we criticize him. He has a great big heart and a keen eye for the almighty dollar, which is, for him, to him, all intents and purposes, the mark and emblem of a man's success in life. Here, in Great Britain, titles, honors, orders and decorations are the rewards for pre-eminence. In America there is no "honors list." The only list that counts is the yearly statement of income tax paid by every citizen and published far and wide so that all can see how a man has risen above his fellows. No wonder, therefore, that everyone strives unceasingly to get rich.—Sir George Armstrong in The London Observer.

Strain Of City Life

The stream of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement on which emphasis has been so frequently laid in the past in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, who over 800 patients. On the other hand, telephones, motorcars and radios have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known.

Swing Of High Buildings

The Eiffel Tower (884 feet) swings as much as three feet in a heavy gale; and the Woolworth Building (792 feet) and other tall skyscrapers do not move more than one and a half inches in high wind.

Just Right for This Weather

High in calories and warming carbohydrates—No fuss or bother—just warm in oven and serve with hot milk Made by The Canadian Shredded Wheat Company, Ltd

Need New Terminal Station

Frederick Palmer Recommends New Station At Montreal For C.N.R. It is absolutely necessary to provide suitable passenger station accommodation for the Canadian National Railways at Montreal, says Frederick Palmer, the well known British railway terminal expert, whose services were retained by the government to study the matter of furnishing the eastern metropolis with more commodious terminal facilities for the Canadian National Railways and at the same time survey the possibility of a joint station for the C.N.R. and the C.P.R. Mr. Palmer's report to the minister of railways was made public.

Heavy Oil Production

Growing Importance Of Alberta's Oil and Gas Fields The steadily growing importance of Alberta's oil and gas fields is shown in recently published figures. The production of Alberta wells for 1928, is placed at 489,531 barrels as compared with 321,154 barrels in 1927. Of the 1928 production the Turner Valley field, in Southern Alberta, contributed 410,623 barrels of naphtha, and 70,734 barrels of crude oil, the remaining 8,174 barrels coming from the Wainwright field. The total production of natural gas for the province in 1928 is placed at 14,198,890 million cubic feet as compared with 12,933,801 million cubic feet in the previous year.

Electricity has voided the use of fishing nets in many parts of Germany. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrocuted and come to the surface where they are gathered by these modern fishermen.

The Value Of Birds

Only Protection Country Has Against Insect Enemies It is estimated that 10,000 caterpillars could destroy every blade of grass on one acre of cultivated land. An insect-infested tree may contain 12,000,000 aphids. The big population of the country has been estimated at from 700 to 1,000 per square mile, and these birds, few enough in number, are our best protection against the insect enemies which they were intended to destroy. The man who kills these insectivorous birds is helping to destroy his own country.

FLU

Claims Many Victims in Canada and should be guarded against.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Minard's Liniment

Is a Great Preventative, being one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers. Minard's Liniment Co., Ltd., Yarmouth, N.S.

The family album is coming back. It is reported, but its companion, the gas jet that could be turned down low, has departed forever.

Near Cardiff, Wales, road repair-men have placed a sign reading: "A car on the road is worth two in the ditch."

There are places in India where there are about 600 inches of rain in some years. There are 209 rooms in Buckingham Palace.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade name (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer Manufacture, to spare the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

INTERIM POOL PAYMENT ON THE 1928 CROP

Winnipeg.—An interim payment on the 1928 crop totalling more than \$26,000,000 is being distributed to Wheat Pool members of Western Canada, according to a statement by E. B. Ramsay, general manager of the Canadian Wheat Pool.

The payment is 12 cents per bushel on wheat grades one to five, and on flax and rye. Ten cents per bushel is being paid on number six wheat. Manitoba Pool members are receiving the sum of \$2,289,455.40 on deliveries of 18,408,000 bushels of wheat, and 703,760 bushels of flax and rye.

Members in Saskatchewan are receiving \$17,499,433.31 on 146,414,000 bushels of wheat, and 3,165,500 bushels of flax and rye.

The Alberta Pool payment of \$6,410,035.12 is on 50,000,000 bushels of wheat. The total amount distributed is \$26,198,923.82.

The payment made at this time is the first payment to be made on grain of the 1928 crop following the initial payment made at the time of delivery by the grower. In 1928 the first interim payment was dated March 9, but pool officials state that the date of the payment was advanced this year as much as possible in order to accommodate the thousands of pool members who have been hard hit financially as a result of the very disastrous frost which occurred on August 23, 1928, and which was general over the three provinces.

The Saskatchewan crop was particularly damaged by this frost owing to the fact that there are so few districts in the province which were not affected to the extent of lowering the grade of the crop from two to four grades.

Commenting on this aspect of the 1928 crop, and on the payment now being made, A. J. McNeil, president of the Saskatchewan Wheat Pool, said:

"Notwithstanding the relatively higher price for wheat which prevails now as compared with the heavy crop season of 1923-24 when the Alberta Pool alone was operating in Western Canada, and notwithstanding the exceptionally heavy crop harvested by Saskatchewan farmers in 1928, there is no question that the wheat grower has just cause to be greatly troubled over the financial returns from his efforts last year. By way of comparison it may be said that for the period of the crop year, August 1 to January 31, the grading of Saskatchewan Pool deliveries from the 1927 crop showed only 22.23 per cent. as falling into the grades from No. 4 to feed, while the corresponding figures from the crop of 1928 is 55.81 per cent. The cause of this greatly increased percentage of lower grades from the 1928 crop is the widespread frost which occurred in August, 1928.

Appointed to Tariff Board
Ottawa.—Hon. James Robt, minister of finance, announced the appointment of Frank S. Jacobs, D.S.A., of Dewinton, Alta., to the vacancy on the tariff advisory board. Mr. Jacobs is a farmer, and succeeds Hon. D. G. McKenzie, who resigned to enter the provincial government of Manitoba.

For Educational Purposes
Brandon, Man.—That the Manitoba government set aside one-eighth of all the natural resources that came under provincial control for educational purposes will be urged as a result of a resolution passed unanimously by the annual convention of the Manitoba School Trustees Association.

Close Town Jail
Danville, Ill.—With the office of chief of police abolished as unnecessary and the lock-up abandoned as a fire-trap, this town of 6,000 inhabitants is now depending on an honor system. Any arrested person faced the prospect of lodging in the village hotel at the city's expense.

Has Had Effect
Ottawa.—Amendments to the Opium and Narcotic Drug Act, to provide for the deportation of aliens convicted of trafficking have had a salutary effect. Convictions have dropped from 1,349 in 1922, to 345 last year.

Grant Hall Received By Pope
Rome.—Pope Pius granted an audience to Grant Hall, vice-president of the Canadian Pacific Railway, who is visiting in Rome.

W. N. U. 1773

Britain Will Adhere To Locarno Treaty

Has Not Considered Any Other Agreement With Foreign Powers
London, Eng.—Godfrey Locker-Lampson, under secretary of state for foreign affairs, assured the House of Commons that Great Britain would enter into no military agreement with other powers that would in any way be contrary to her obligations to Germany under the Locarno security pact.

He made this statement in answering one of the many questions propounded as a result of recent publication in Holland, of an alleged military pact between France and Belgium, the particular question being: "Can assurance be given that no military discussions will be held with France or Belgium which would not include Germany, in order strictly to maintain British obligations under the Locarno pact?"

The reply was: "The member may be quite sure that we will do nothing contrary to the Locarno pact." Volleys of questions regarding the alleged Franco-Belgian military agreement, and reports that Great Britain had some connection with it, were fired at the government in the House. Godfrey Locker-Lampson made categorical denial of the rumors, saying: "Apart from the treaty of Locarno no agreement involving a military commitment has been concluded since the war between this government and Belgium, nor is any military agreement or understanding in existence between the British general staff and that of any foreign country."

Purchase New Plane

Universal Airways, Limited, Order Another Machine For Use In Saskatchewan

Regina.—Speeding up their plans with the opening up of the weather, officials of the Universal Airways, Ltd., ordered for immediate delivery of a new cabin airplane for use in their proposed transport and express service in Saskatchewan.

The new machine will be capable of carrying four passengers or 500 pounds of freight. It will have a cruising radius of 550 miles and will be able to travel at a speed of 135 miles per hour when loaded. It will have a top speed of 150 miles an hour.

Company officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the third of its kind purchased.

No Divorce Court For Ontario

Ottawa.—Defeat in the House of Commons of the bill to establish divorce courts in Ontario saw party lines badly broken on the division. Introduced as a private member's measure by J. S. Woodsworth (Labor, Winnipeg North Centre), the bill was defeated by 99 to 68. Premier Mackenzie King and Hon. Guthrie, acting Conservative leader, were not present for the division.

Died In Geneva

New York.—Frederick M. Harris, editor-in-chief of the publication of the Young Men's Christian Association, died in Geneva where he had gone last October for medical treatment, according to word received here by his associates.

Westminster Glee Singers

Famous Organization Making Tour Of Western Canada

Outstanding among the musical events of the present winter, is the visit of the Westminster Glee Singers, who are at present touring Western Canada. The excellence of this traditional group of singers is known throughout the Empire, and music lovers of the Canadian West are greeting with delight the appearance of these famous entertainers, seven of whom are pro contraltos. The program includes a charming arrangement of madrigals, plantation songs, folk songs, sailor chanteys and sacred selections. Following is the balance of the itinerary arranged for them in Western Canada: Prince Albert, March 8 and 9; Saskatoon, March 11, 12 and 13; North Battleford, March 14; Vermilion, March 15; Vegreville, March 16; Olds, March 18; Ponoka, March 19; and DeWinton, March 20. Edmonton, March 21, 22, 23; Calgary, March 25, 26, 27; Lethbridge, March 29, 30; Medicine Hat, April 1 and 2; Macleod, April 8; Coleman, April 9; Fernie, April 10; Cranbrook, April 11; Nelson, April 13; Pentton, April 15; Kelowna, April 16; Vancouver, April 17; Kamloops, April 18; Chilliwack, April 19; Vancouver week commencing April 22nd.

Application Is Dropped

Canadian Northeastern Not Building Railway Into Peace River Country

Victoria, B.C.—The Canadian Northeastern railway dropped its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. With its part of its original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 285 miles from Stewart, a tidewater port in northern British Columbia, to Fort Graham, in the central northern part of the province.

The Northeastern also dropped its request for right to build a branch up the Finlay river from Fort Graham for 100 miles, pending a decision of the future of the government line.

PREMIER KING ON THE QUESTION OF RESOURCES

Ottawa.—The whole vexed question of the return of the natural resources to the western provinces was ventilated in the House of Commons recently. In a lengthy speech, Premier Mackenzie King reviewed the history of the natural resources problem and outlined the position today. In brief, the situation at present, as dealt with by the prime minister, is as follows:

The province of Alberta is now considering an offer from the Dominion government of the return of its natural resources coupled with the payment to it of a subsidy amounting to \$562,000 annually for all time.

Saskatchewan has refused an offer of the transfer of its lands "without any strings attached," and the payment of the present subsidy.

Agreement has been reached to transfer to British Columbia lands in the Peace River block and the railway belt. At present officers of the departments concerned are working on the necessary accounting having to do with the transfer.

With respect to Manitoba, a commission is now engaged on matters concerned with the handing over to that province of its lawful resources.

The Prime Minister made only passing reference to the Seven Sisters Falls lease to the Winnipeg Electric Company. The leader of the opposition had been critical of the haste which Mr. Bennett claimed prompted the government in its return of the natural resources to Manitoba.

Earlier in the session, the Premier continued, the same gentleman had condemned the government in its delay in dealing with this matter. Mr. King remarked, amid laughter, that "the whole reason of the haste was to avoid delay."

Radio Operator Has Travel Record

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 6,134,726 miles during 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance. Mr. Anderson covered 153,050 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, compartment, observation car.

RECEIVES NEW APPOINTMENT

J. M. McFay, newly appointed General Agricultural Agent, Western Lines, Canadian Pacific Railway.

Famous Flyer In Accident

Col. Lindberg and His Fiancee, Miss Morrow, Meet With Mishap
Mexico City.—Colonel Charles A. Lindbergh's flying skill saved the life of his fiancée, Miss Anne Morrow, when their plane capsize on landing at Vahbeta Field.

The colonel is confined to bed in the American embassy residence with what embassy attaches describe as a "slightly dislocated shoulder blade." Miss Morrow was badly frightened, but not injured.

Colonel Lindberg was returning from an air trip of several hours with the girl whom he will marry. The aeroplane, a four-passenger monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the plane safely to earth and taxied for thirty yards on one wheel with the axle of the missing wheel dragging on the ground. Suddenly the plane pitched forward and turned completely over.

Later, Colonel Lindberg declared "this is nothing at all. It is not an accident; it is simply a mishap."

Dynamite Plot Failed

Explosive Is Found In Office Of Premier Tacheureau, Of Quebec

Quebec.—Questioned as to a rumor that an attempt had been made on his life, Premier Tacheureau stated that when he went to his office in the parliament buildings at 10.45 p.m. he found a stick of dynamite on the floor with a half-burned fuse attached. The fuse had been extinguished by some agency after burning a few inches.

Premier Tacheureau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Switching on the lights at once he noticed the dynamite lying on the floor.

Premier Tacheureau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

TESTIMONY GIVEN ON MANITOBA POWER DEAL

Winnipeg.—Negotiations between the Winnipeg Electric Company and the Bracken government regarding the Seven Sisters Power site were not affected by any advance knowledge of the Hogg report conveyed to the private firm, Edward Anderson, K.C., president, stated recently before the Royal Commission investigating charges made by Colonel F. O. Taylor against the Bracken government. Mr. Anderson testified that the agreement was made after "real, genuine, honest, bona-fide negotiations."

The Winnipeg Electric Company would not have made the bargain as it resulted had they known the nature of the Hogg report, Mr. Anderson stated, but would have "held out" for better arrangements. The report submitted by Dr. T. H. Hogg, consulting engineer for the Ontario Hydro Commission, has been regarded as the influence leading the Bracken government toward leasing the Seven Sisters site to the Winnipeg Electric Company.

That negotiations with the Bracken government almost "blew up" owing to the fact that A. W. McMillan, Conservative M.L.A., for Manitoba, introduced the bill to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

Will Search For Italia Crew

Rome.—Italians who believe that it is still possible to find some trace of and perhaps even to rescue the six men who drifted away with the balloon part of the "Noble dirigible Italia are attempting to raise funds for a new Arctic expedition next summer. They would lease an ice-breaker and expect the loan of a seaplane from the Italian Government.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed the bill introduced by Willis Tremblay, Conservative M.L.A., for Manitoba, to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

Planes Long Flight

Toronto.—Captain Errol Boyd, a Toronto flyer, announced Tuesday he would attempt the first non-stop flight between Toronto and Mexico City "in about a month's time." The plane will be used to carry mail and passengers, he said.

Plotted Two Zeppelins

Berlin.—Walter Schers, a veteran helmsman of the air who stood at the wheel of two Zeppelins when they crossed the Atlantic to the United States, died here from balloon gas poisoning.

Employment Situation Shows Improvement

Better In Canada Than In Any February On Record

Ottawa.—Employment in Canada on February 1, was in better condition than on that date in any year on record, according to the Dominion Bureau of Statistics. Reports from 6,391 firms showed a total of 633,842 employees as compared with 621,404 on January 1.

The contraction on the prairie provinces was less than on February 1, 1928. The situation continued better than on the same date in any year on record. Manufacturing and logging advanced, while there was a shrinkage in trade, construction, transportation and communications. The situation was also better in British Columbia as compared with the same date last year. There was substantial improvement in mining but logging, manufacturing and transportation were slacker.

Pioneer Lake Captain Dead

John Cousens Saw First Steamship

Port Arthur, Ont.—Marine Captain John Cousens is dead here aged 82 years. At Sault Ste. Marie he saw the passing of the Rescue, the first steamship to sail Lake Superior. He sailed on the Chicago, famous blockade runner.

In 1871 before the advent of the Canadian Pacific Railway, he carried mail over the ice route between Duluth and Port Arthur. He served with the Queen's Own in the Fenian Raid and was one of the guard of honor of the Confederation in Toronto, in 1867. Later he served with Wolseley in the Northwest.

Forced To Swallow Knife

Toronto Things Use Inhuman Method On Victim

Toronto.—Angered at the small amount of money they found on his person, two thugs forced Angelo Augustus, 35, Toronto, to swallow a jack knife, more than four inches in length.

Angelo is now in hospital where doctors hope to save his life.

According to the victim one of his assailants attempted to make him swallow the knife with the blade open but his accomplices interfered and the blade was closed.

Death Of Sir James Atkins

Former Lieutenant-Governor Of Manitoba Passes Away

Winnipeg.—Sir James Atkins, K.C., former lieutenant-governor of Manitoba, and a distinguished member of the Canadian bar, died early Friday morning.

Sir James, who was in his 78th year, died at the residence of his son, Major H. Harold Atkins, shortly after midnight. He had been ill for a week, when he suffered a heart attack.

Sir James had a brilliant career in law, politics, the church and business, which won for him an international reputation. He was one of the founders of the Canadian Bar Association, and for many years was its president.

Complete Trip By Boat

Saigon, French Indo-China.—The French aviators, Joseph Lebrin and Sergt. Major Antoine Paillard, will complete their trip from France aboard the steamer "L'Esperance" on Friday, March 5, a message here states. It is said their plane was wrecked in the crash which occurred about 122 miles from Rangoon. The occupants were unhurt.

Will Search For Italia Crew

Rome.—Italians who believe that it is still possible to find some trace of and perhaps even to rescue the six men who drifted away with the balloon part of the "Noble dirigible Italia are attempting to raise funds for a new Arctic expedition next summer. They would lease an ice-breaker and expect the loan of a seaplane from the Italian Government.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed the bill introduced by Willis Tremblay, Conservative M.L.A., for Manitoba, to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

Toronto.—Captain Errol Boyd, a Toronto flyer, announced Tuesday he would attempt the first non-stop flight between Toronto and Mexico City "in about a month's time." The plane will be used to carry mail and passengers, he said.

Plotted Two Zeppelins

Berlin.—Walter Schers, a veteran helmsman of the air who stood at the wheel of two Zeppelins when they crossed the Atlantic to the United States, died here from balloon gas poisoning.

PRIORITY RIGHTS ARE CLAIMED BY TWO COMPANIES

Ottawa.—The bones of contention between the Canadian National Railway and the Canadian Pacific Railway, with regard to the branch line program, came up before the parliamentary committee on railways and canals. Except for one area, an agreement has been reached between the two companies in connection with their program. The single exception is the line projected between Melfort and Aberdeen, in Saskatchewan, to which both companies claim priority construction rights.

Sir Henry Thornton, president of the National System, told the committee that the Government owned road claimed this territory by virtue of the fact that 12 years ago, the old Canadian Northern had already started building there, and had already graded 19 miles of the 67 mile project. Four years ago, this line had been one which had been presented to the Government in the company's program, but with others it had been rejected by the Senate. He felt that the railway had given ample evidence of its good faith in proposing to carry on with the construction. Commenting on a protest by A. F. Totzke, of Humboldt, Sir Henry declared that the C.N.R. did not claim any part of Canada as exclusively Canadian National territory, but felt that reasonably and as a matter of common sense, that particular line, upon which work had already begun should be regarded as within the scope of C.N.R. construction.

E. F. Filmore, K.C., counsel for the Canadian Pacific Railway, declared that last year, his company had carried on surveys, upon the representations of the inhabitants of this district, and on their declarations that the C.N.R. did not contemplate building a line there. He felt that the committee should grant the charter in order that it might keep faith with the public.

Death Of Sir James Atkins

Former Lieutenant-Governor Of Manitoba Passes Away

Winnipeg.—Sir James Atkins, K.C., former lieutenant-governor of Manitoba, and a distinguished member of the Canadian bar, died early Friday morning.

Sir James, who was in his 78th year, died at the residence of his son, Major H. Harold Atkins, shortly after midnight. He had been ill for a week, when he suffered a heart attack.

Sir James had a brilliant career in law, politics, the church and business, which won for him an international reputation. He was one of the founders of the Canadian Bar Association, and for many years was its president.

In Body and Chassis... in style and stamina..... the most advanced automobile of the day

McLAUGHLIN-BUICK'S Masterpiece Bodies by Fisher mark the new motor car style — McLaughlin-Buick's adjustable front seat, full-width rear seat, adjustable steering column and other luxurious features set the new standard of comfort—and this masterly new car reveals equal leadership in engineering.

The new McLaughlin-Buick Valve-in-Head engine is the most powerful automobile engine of its size in the world. The new McLaughlin-Buick carburetor and constant-pressure gas pump are the most costly and efficient employed on any car. The new McLaughlin-Buick double-drop frame is the sturdiest in this field. The McLaughlin-Buick chassis is sealed, all parts enclosed in dirt-proof, dust-proof, water-tight housings. And McLaughlin-Buick's cantilever springs and Loveloy Hydraulic shock absorbers impart unrivaled riding luxury.

Facts like these explain why the new McLaughlin-Buick leads in performance, appearance and value, and why buyers are according it the greatest preference ever shown any fine car.

NOTES AND COMMENTS

Coleman Board of Trade has been inactive since its annual meeting held in June 1928. The reason of this is because it had no defined plan of activity, or no objective. Members paid their fee and nobody troubled any further about it. Without a definite object in view, indifference becomes rife, and a Board of Trade exists in name only. Commenting on the work of such organizations, the following from the official paper of the Canadian Chamber of Commerce is worth reading:

The Board bases its existence upon service to the business community through the improvement of trade conditions and the encouragement of general growth and prosperity. It has an opportunity, which is peculiar to it, of bringing the developed constructional abilities of successful business men into coordinated touch with economic and social life. The value of the Board of Trade to the community lies in its power to bring such ability, combined with diversified knowledge of business fundamentals, to the solution of more general problems.

Without a definite goal in view, work is liable to become haphazard and organizations tend to become satisfied with less than they otherwise would. If a well-considered program was drawn up at the commencement of the year, hitherto "disinterested" members could be empanelled into committees in which they could use their peculiar ability and talent to the best advantage, and in which they would become keenly interested. This plan is already pursued in most of the larger centres with good results and is an example which may be followed to advantage by smaller Boards. Disinterestedness is a painful situation and the application of this suggestion may be one of many palliatives for the case. The major part of the problem rests with the individual Boards themselves which should see to it that every member is actively enlisted in the work for which he is peculiarly fitted. An appreciation of the value of elementary psychology and its application goes a long way.

Newspapers throughout the world have given considerable space in comment on the meeting of the High Council of the Salvation Army, and as there is a post of the Army in Coleman, it has some local interest. Without question it is the greatest social service organization in the world, and one does not realize the extent of its work until they look at a map and see the countries of the world where it has corps established. The recent meeting in London has brought the Army before the great masses of the people in a general way as never before, and though it was for a very regrettable reason that it met, yet the Army emerges stronger than ever as a result, and higher in the estimation of the peoples of the world. Its work, right from International headquarters down to the farthest outpost, is an example of self-sacrifice and service, against which the efforts of other organizations "service" or otherwise, appear small in comparison.

The increased volume of power that has been supplied to the towns and industries throughout the Crow's Nest Pass during the past year is significant. It is a sure sign of increased activity. At the steam plant at the lake a few miles west of town, which commenced operation in 1927, the capacity is being doubled, and the output for this area is greater by far than any other district in the province. There may come the day when industries which require large quantities of coal and power may find it profitable to consider locations in this district, for immense natural resources such as exist here will surely be utilized to a far greater extent as the population of this western country increases.

Hockey play-offs cost more than is received in gate admissions. Gleichen and Coleman were drawn to play off in B. intermediate series, and to transport the teams in home and home games would entail a cost of approximately \$400, including their hotel and incidental expenses. This is too expensive for the average team, and it means that play-offs have to be forfeited or somebody must delve into their pocket to foot the bill. Coleman hockey team has paid its way this season, the rink company has received its percentage in full, and all bills have been paid. Had there been sufficient gate admissions collected during the season to pay for the play-off games, it would be easy to send the boys to Gleichen. But they cannot travel on air, consequently it is probable the game will be forfeited.

It was very pleasing to note the loyalty of Coleman high school students to their representative in the Oratory contest. Megan Jones was an able representative and was well worthy of their enthusiastic support in the Macleod inspectorate contest.

The Salvation Army
Meetings for Sunday, March 10, as follows:

German Aerial Expedition Will Again Attempt Conquest Of the Arctic This Spring

The conquest of the Arctic will again be attempted this spring. Plans for a circuit of the Arctic regions by the German airship LZ-127 have been revealed by Capt. W. Bruno, a German member of the "Aero Arctic," an international scientific organization, who visited officials of the Interior Department seeking their co-operation.

The expedition will be undertaken within the next few months, when the sun in the far north will shine 24 hours a day and the expansion of the gas in the airship will be obtained.

The airship is being lent by the German government, while the Russian government, by erecting a mooring mast at Leningrad, is giving assistance.

An effort will be made to map certain regions in the north. Observations will be made of sea depths and weather conditions.

The "Aero Arctic" foresees the possibility of regular air routes being established between points in the Arctic circle. Another suggested is Yokohama and Vancouver, by way of the Aleutian Islands.

The airship will start from Leningrad, thence to Kolan, on the Murmann coast, to Franz Joseph Land, across the Canadian sector to Nome, Alaska, where it will be re-provisioned, thence to Wrangel Island finally over the Polar basin.

Officials of the Interior Department are considering the possibility of sending a Canadian scientist on the expedition.

School Attendance

2,291,720 Students Are Enrolled in Educational Institutions of Canada

The number of students enrolled in the educational institutions of Canada was, according to the latest survey, 2,291,720. These included 2,027,739 in ordinary publicly controlled day schools, 102,968 in technical and evening schools, most of them under public control; 71,468 in private or independent schools; 42,649 in universities and colleges; 3,980 in preparatory courses, or colleges affiliated to universities and colleges, in addition to those in private schools. The remainder were in business colleges, normal schools and other scholastic institutions.

The educational standing of the enrollment was 1,932,963 in elementary grades, and 300,149 in secondary or higher grades. These do not include the greater part of night school pupils.

The expenditure on public education during the year 1926-27 is given as \$125,876,875.

Fox Ranching Problems

Fox raisers and particularly beginners would do well to secure from the Publications Branch of the Department of Agriculture, at Ottawa, a copy of the first report of the Experimental Fox Ranch that has been operated in Prince Edward Island during the past three years. The ranch as described in the report is a model that might safely be followed. Problems of exercising, feeding, treatment for parasites and health are dealt with in a helpful way.

Cable Used During War

The post office cable from Peterhead to Russia, which was of great service during the War, has been dismantled. At one time a staff of forty-five was employed in handling messages at the Peterhead end of the cable, but this number gradually dwindled as the service fell into disuse.

Making a fool of a man is one job woman can beat nature at.

"Eugene, shall we buy a wireless set with a loud speaker?"
"Are you mad? Haven't we your mother with us?"—Moustique, Charleroi.

Cash Bonus For Farmers

Large Sum Is Distributed By Saskatchewan Wheat Pool Elevators, Ltd.

Cheques to the total amount of \$1,430,791 were recently distributed to members of the Saskatchewan Wheat Pool Elevators, Ltd., all of whom are farmers. These cheques represented the surplus earnings of the Saskatchewan Pool Elevator system for the crop year 1927-28.

At the annual meeting of Saskatchewan Wheat Pool delegates held in Regina last November, it was decided that these be distributed to the members in cash. The payment is being made on the basis of 1 1/2 cents per bushel for grain delivered through Pool country elevators and one cent per bushel for grain delivered to Pool terminals over the platform.

This is the third payment in cash covering the excess charges refund which has been made to Pool members. The amount of the surplus earnings of Saskatchewan Pool Elevators Limited during 1925-26 was returned to growers in February, 1927, and amounted to \$475,000. This figure jumped to \$1,372,000 for 1926-27, and for 1927-28 to \$1,430,791.56, the amount recently distributed.

Money Needed For Montreal Harbor

Intimated That H.B. Lise May Curtail Business At Eastern Port. A bill to authorize a loan of \$10,000,000 to the harbor commissioners of Montreal for extension of harbor facilities, received first reading in the House of Commons, Hon. P. J. A. Carlin, minister of marine and fisheries, explained the money was not a gift, but was a loan.

Hon. R. B. Bennett, Conservative leader, drew attention to the possibility of a curtailment of business at Montreal on account of the construction of the Hudson Bay railway. The proposed extension of the line to Winnipeg indicated that some of the business would hereafter go in that direction. Mr. Bennett stated that further discussion would be had on second reading.

January Immigration Figures

Return Movement To Canada From United States Is Noted

Immigration to Canada during January amounted to 4,164, an increase of 13 per cent. over January a year ago. British immigration for the month increased from 771 to 1,132, immigration from the United States increased from 1,223 to 1,573, immigration from other countries decreased from 1,988 to 1,458.

The return movement to the Dominion of Canadians who had gone to the United States intending to live there and who came back declaring their intention of remaining permanently in Canada, amounted during January to 1,767. These are not included in the immigration returns.

At the next World's Poultry Congress to be held at the Crystal Palace, London, England, in July 1930, it is anticipated that Canada will exhibit about 1,000 live birds. In addition the Dominion will have an educational exhibit.

The cost of the World War has been fixed by a League of Nations committee at \$32,500,000,000 (£72,500,000,000).

Alberta School System

Total School Enrollment Is Given As 160,900

Alberta's total school enrollment is approximately 160,900. A greater percentage of increase occurred last year in high school than in public school enrollment.

The per capita cost of education for all schools in the province has remained practically stationary.

The foregoing information is contained in the annual report of the department of education, tabled in the legislature by Hon. Perren Baker, minister of education.

While the total enrollment in the schools of the province increased by 4,706 in 1928, approximately 37 per cent of this number is to be found in the high schools. In 1906 the percentage of the entire enrollment in the high school grades was 2.41 in comparison with 11.44.

During the year 56 new school districts were organized. Of these 33 are north of township 53, and 17 north of township 70. The total number of districts in the province now stands 3,497. There are, however, a total of 5,148 departments in regular operation. Eighty-one new one-room schools were built and 13 new two-room schools. This is all exclusive of the building taking place in the towns and cities.

There has been an increased demand for technical education throughout the province. More than 1,000 more pupils wrote on the departmental examinations than ever before. In the high school grades 75.9 per cent of all the units written were passed successfully. Making an average of 75 per cent or more on all units required for matriculation or normal entrance 149 pupils obtained honors.

New text books in agriculture for both elementary and secondary schools were introduced during the year, also a new system of writing the letter was prepared to accompany the Alberta curriculum in writing.

Approximately \$150,000 worth of business was done in the school book branch. Ninety-four per cent of this business was done with firms located in Canada. The remaining six per cent went to British and American firms.

Sea Power Is Essential

Great Britain Could Not Definitely Renounce Its Use

Unquestionably Great Britain, to retain its prestige as the United States, would be prepared to go a long way in renouncing the use of naval power under certain conditions. It is absurd, however, to suggest, as the United States senate does officially suggest, that Great Britain and other maritime powers must renounce the use of sea power under any and all possible conditions. It is no reflection on the good faith of the United States to say that in time of war not even the American navy would be useful in accordance with the terms of any such treaty.

John Decided It

The wife of a famous English Bishop—whom we shall call John Bishop—was recently very ill, and required a serious operation. As she recovered from the anesthetic, she was heard to murmur: "Am I in Heaven? Am I in Heaven? No, there's John."

DOG SLED DERBY

gentlemen drivers who race their own dogs for the love of the sport has given the event a much wider appeal. Famous dog mushers from the north with malamutes and huskies, will vie for honors with men whose dogs are bred for show points.

The race goes to those with the greatest stamina. Run over a forty-mile course for each of three days, the derby is an endurance test for man and beast. And no whips are used. Arthur Beauvais is seen above with one of the husky types. The other picture shows practically all that a musher sees during the race.

Two "gentlemen drivers" are now competing for the Eastern International Dog Sled Derby. There was very little if any of commercialism connected heretofore, but the entry of the

Close Kinship Between Life Of Plants and Animals Is Borne Out By Interesting Experiments

Airmen Are Modest

Fame and Notoriety Do Not Seem To Affect Them

Airmen of the first rank are shy birds, for in them modesty seems innate, and it is possibly quite true that none has ever boasted of his feats in the war or of his exploits in flying. Deeds have made them known, but it is not they who gushed over them. Fame, and more often a writer of notoriety, has been thrust upon them; but from it they have emerged as they do from the clouds, unruined, unaffected, reserved.

They may have flown the north Atlantic, as three did, from Dublin to Greenly Island, and be engulfed in ovations that would turn the heads of lesser kings. But when the noise subsides, and the glory they best know came so close to catastrophe, has gone down in the records of aeronautics, those fliers, like the host of their comrades in flight doing their jobs of work, retire into unnoted privacy. Their names were in everyone's mouth; but in a few months, in a year, are difficult to recall, and they might not be remembered today had not one of the three, Baron von Hunsfeldt, at Berlin, with regrettable untimeliness, taken off on his flight in death.

It was as a passenger that Von Hunsfeldt joined in the north Atlantic flight, which he had made possible by expending on it all he possessed; but he was a pilot when he died, and in the last few months had flown a remarkable flight from Germany to Japan. He had joined the men who fly. Among combatants, they are apart; among civilians, they are alone. In war, as in peace, their code is exemplary in honor. It is the same for all nations, high as the ships their airmen fly. They will be avenged in honor for Von Hunsfeldt. He would not ask more; for the spirit of him that has taken off will be borne to the aerodrome as which all airmen must land in time, so many so early.

Air Mail For The West

Understood That Post Office Department Will Resume Winnipeg-Calgary Service

While there is good reason to believe that the cabinet greatly reduced the amount of money sought by the post office department for the extension of air mail services in the Dominion, it is understood that it is the intention of the department to proceed with the Winnipeg-Calgary service as soon as the estimates are approved by parliament.

The total amount of the increase sought by the department for air mail services is said to have exceeded \$1,000,000 and this was reduced by the sub-committee of the cabinet which reviews the estimates before their presentation to parliament to \$800,000. This reduction will compel the post office officials to exercise the greatest care in preparing their plans and in negotiating air mail contracts with private airway companies.

The cost of the Winnipeg-Calgary service was estimated at being between \$450,000 and \$500,000, but the department is committed in other directions in regard to air mail services and as it now stands not more than \$400,000 of this amount will be available for this service across the prairie. Notwithstanding this unfavorable situation, however, the officials will proceed with plans and make every effort so to arrange the matter that a service will be begun, probably next autumn.

His Reminder

A K.C. strolling along a street one morning, came to a fishmonger's shop. He was fascinated by the dead, expressionless eyes of the fish on a slab in the window.

"Good day, the reminds me," he said suddenly hurrying away. "I've got to address a special jury this afternoon."

No doubt there are linguists who know the exact shades of difference between honey, bologna, blab, baloney, applesauce and banana oil.

Blinks (waiting with friend): "Was your wife ever on time?"
Jinks: "Well, once she sat on my watch."

That remarkable native Indian scientist, Sir Jagadis Chandra Bose, founder and director of the Bose Research Institute at Calcutta, is an eloquent and ardent supporter of the close kinship between the life histories of plants and animals and their reactions to external stimuli. He has mustered a vast amount of experimental data in defence of his theory and these have recently been reinforced by a series of interesting experiments conducted by the Boyce Thompson Institute of the United States into the reaction of vegetables to the influence of artificial light. The results indicate that vegetables are not alike, but possess distinct individualities of their own, indeed responding with marked differences that are not very far removed from human responses under corresponding treatment.

Take the radish as an example. No one, probably, had ever suspected the radish of any great yearning after the thrills and excitements of night life. It has always seemed a sort of stodgy vegetable, despite its pungent flavor and its preference for red as a color. But the Institute reports that when the radish had its normal day extended by the concentration upon it of light designed to duplicate as far as possible the light of a sun, it perked up in surprising fashion. Indeed, it displayed a readiness to enjoy the longer hours that would have done credit to regular cabaret patrons.

Even more surprising, however, was the action of the lettuce, than that of the radish. It would wear an external aspect more conventionally respectable. Though a point arrived where the radish showed signs of getting tired, and of wishing that somebody would put out the lights, and let it go to bed, not so the lettuce. It, apparently, was prepared to stay up all night. After a straight twenty-four hours of light it was still fresh. This just goes to show that you never can tell. That may be a somewhat broad-brimmed conclusion, even if ripe tomatoes have on occasions been involved in riotous happenings. But if the Institute's reports are correct, we have done it an injustice in suspecting it. After an extra hour under the stimulus of the bright lights the tomato showed signs of extreme weariness, we are told. Another half hour and it began to wilt. In kindness the lights had to be extinguished before a second hour had elapsed.

It has had enough. Let the radish and the lettuce turn night into day if they like, but none of this night stuff for the tomato. It prefers regular hours. Early to bed and early to rise is its motto. It sets an example of the simple, quiet and fruitful life to its neighbors of the vegetable garden.

Could Not Hold It

The station-master rushed out of his room after hearing a crash on the platform. He discovered a dishevelled young man sprawled out perfectly flat among a confusion of overturned milk cans and the scattered contents of his traveling bag.

"Was he trying to catch the train?" the station-master asked of a small boy who stood by admiring the scene.

"He did catch it," said the boy, "but it got away again."

"The Geographical society says explorers should be bachelors."

"But what would keep them abroad?"

Pratt: "I understand Chicago has adopted a flower as a civic emblem." Simpson: "Yes? What is it?" Pratt: "Crocus."

"I am a commercial traveller in insect powder."
"That is very nice, but here we crush them between our thumb."
—Pages Gates, Yverdon.

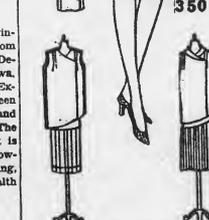

Unearthed Evidence Of Mighty Battle

Last Stand Of Prehistoric Giant Against Buffalo Found In Africa

Harking back into primordial existence on the Dark Continent, road makers working in a quarry at Springbok Flats, north of Pretoria, South Africa, unearthed evidence of a mighty battle in the dim past between an extinct species of giant buffalo and a powerful, giant-like primitive man. Indications from the shattered bones of man and beast which were found lying close together in the same stratum were that the man had been trampled to death by the buffalo in some remote age.

Most of the man's skull, a majority of the longer bones and parts of the hands have been recovered. The buffalo's remains also indicated that he died a swift and violent death, probably due to injuries inflicted on him by the man. The Johannesburg Museum director believes that the hunter and the hunted died almost simultaneously.

The man is officially described as "a powerful, large-sized man not closely related to any of the Negro races." The size of the buffalo, as estimated by measuring between the tips of the horns, must have exceeded that of the largest known American species.

Dashaigly New

Smart side-closing coat dress with fluttering platts across front of skirt that accent youth of wearer. It attracts snugness through the hips through long-waisted bodies that serve as a hip-poke. The dart-fitted sleeves, forming tab extensions, button-trimmed, are a new style note. The one-piece collar is especially becoming. For immediate all-around wear, it is very smart made of printed rayon velvet as illustrated with collar and belt of faulle silk. Style No. 350 is designed in sizes 16, 18, 20 years, 36, 38, 40, and 42 inches bust. Feather-weight tweed, cashmere, wool jersey, silk crepe, wool crepe and crepe satin are also suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Britain's Wheat Market Valuable To Canada

Interesting Facts Brought Out in Report Published From Ottawa
 The market in Great Britain is worth twice as much to the Canadian wheat grower as the markets of all the rest of the world taken together. That is a fact that stands out in a report published from Ottawa giving the export figures for the present crop year up to date. Putting it another way, if all other countries barred our wheat by excluding tariffs, the Canadian farmer could still find a market for two-thirds the amount of wheat he now produces—in Great Britain. Or, if Britain barred our wheat, we would have to find buyers elsewhere for three times the amount of wheat we are able to sell in other countries at present.

Canadian wheat—and every other Canadian product—has a preference in Great Britain. The proof is that no other importing country in Europe admits our wheat on the same favorable terms. Should Britain ever adopt a tariff, there is no doubt whatever that Canadian wheat would be admitted on the most favorable conditions granted to any wheat-growing country. A tariff is being actually proposed there in order that a financial preference could be given to Canadian wheat. The British market is the permanent outlet for Canada's surplus wheat crop, incomparably the largest outlet there is, and the largest there is likely to be. That is a fact which Canadians ought to keep in mind when they think of international trade—and when they are thinking of buying imported goods.—Edmonton Bulletin.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.
Scott's Emulsion is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.
 Scott & Bowne, Toronto, Ont. 25-8

SUNDAY SCHOOL LESSON

MARCH 10
BAPTISM AND THE LORD'S SUPPER
 Golden Text: "This do in remembrance of Me."—Corinthians 11:24.
 Lesson: Matthew 3:13-17; 28:19; 26:26-28, 31; Romans 6:3-14; 1 Corinthians 10:16, 17.
 Devotional Reading: Revelation 7:9-17.

Explanations and Comments
 Christ's Commission To Baptize All the Nations, Matthew 28:19-20.—Upon a mountain in Galilee after the resurrection of Jesus, the eleven disciples saw Him again and worshipped Him. He told them of His universal dominion ("All authority hath been given to me in heaven and in earth") and gave them His world-wide commission to make His power a reality; to baptize in His name, and make disciples of all nations.

"Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widens from cradle to home, school, city, country, and, with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first horizon that He saw, and the last. When He was born, good tidings came to whom—the Jews? 'Unto all people'; among all nations; throughout the whole world.' To every creature 'to the uttermost part of the earth'; are Christ's words. 'Go ye into all the world and evangelize in My name.' His guidance, as Father, his boundless expectation."—Maltbie D. Babcock.

Jesus directed His followers to baptize disciples into the name of the Father, and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever He commanded them. "Baptism is (1) into the name of the Father, as our Creator; (2) into the name of the Son, as our Redeemer; (3) into the name of the Holy Spirit, as our Sanctifier, Teacher, Guide and Comforter. And then Jesus gave His wonderful words of comfort and encouragement and cheer: 'Lo, I am with you always (not to be feared, but to be relied on), even unto the end of the world.'"

"Our responsibility for missionary work is not to be limited by the power of Christ; our power for that work is perfect in this great promise of Christ.

Success and Happiness

People Do Not Fail Entirely Who Never Reached Goal
 Mr. Edison, on his eighty-second birthday, told a number of assembled newspapermen that he was not acquainted with anyone who was happy. There is no reason to suppose that Mr. Edison was jesting and it would be an impertinence to suggest that he does not know his own mind. But if by "happiness" he means what tens of thousands of his fellow men mean—the satisfaction of having tried hard and won—Mr. Edison is clearly stretching a point, since in that case he himself would be one of the happiest of men. He has gone from victory to victory in the world of scientific invention and he will leave an undying name behind him. In some few things he may not, in his own opinion, have succeeded; but this is not to say that he failed. You do not necessarily fail entirely because you do not wholly succeed; and Thomas A. Edison has been a very notable success.

The Good Old Days
 Maybe you can live cheaper than one, after all. Mr. and Mrs. Tom Lovelock, of Lynchem, England, in celebrating their golden wedding anniversary, revealed that they were poorer when Lovelock was making but \$25.00 a week and that shortly after his salary was reduced to \$22.25.

When a mother detects from the wringing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will kill all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

Scientist says life evolved in a series of jumps, and a cursory inspection of our throats convinces us it is still evolving that way.

Minard's Linctant for Coughs and Colds.

Want Rail Deal Approved

Agreement Between Railways and Province Of Alberta Up For Ratification
 Approval of the agreement between the C.N.R., the C.P.R. and the Province of Alberta, for the purchase of the undertakings of the Edmonton, Dunvegan and British Columbia railways; the Central Canada Railway Company; the Central Canada Express Company; the Alberta Great Waterways Company, is sought in a resolution placed on the order paper of the House of Commons, by Hon. C. A. Dunning, Minister of Railways and Canals.

The resolution seeks further authority: "To incorporate the Northern Alberta Railways Company, in which are to be vested the said jointly acquired railways."

"To authorize the Governor-in-Council to guarantee the principal and interest of the securities to be issued by the Canadian National Railway Company, to an amount or amounts fixed from time to time by the Governor-in-Council for the payment of one-half the purchase, and one-half the obligations assumed under the said agreement."

The Explanation
 "I bought a new car and gave my piano-player as first payment. I didn't know they accepted piano-players as payment on new cars."

"They don't usually, but the sales man is a neighbor of mine."
 Mother (giving afternoon tea instructions): "Now, remember, Willie, when these cakes are baked, you must take a plain pan from the bottom of the dish."
 Willie (disgustedly): "Just my luck! The bargain basement again!"

"Dick is all right if you know how to take him."
 "I hate these people who have to be labelled like a bottle of medicine."

FLU-GRIP VICK'S VAPORUB

Your food doesn't do you any good if you're tired

At the end of a day's work, relieve nervous tension before eating. Wrigley's will refresh and tone you up—so that you're ready to enjoy your food.
 Then, after meals, Wrigley's helps digestion, cleanses the teeth, removes all traces of eating or smoking—sweetens the breath.

WRIGLEY'S

Reward Wheat
 In Gaining In Favor In Some Sections Of Manitoba
 Reward wheat continues to look promising and in some sections of Manitoba may prove more desirable than Durum, in the opinion of L. H. Newman, Dominion cerealist, who met provincial agriculturists interested in the selection of approved varieties of wheat; the object being to reduce the number of varieties to those of demonstrated superiority.

There are 10,000,000 accidents in the United States each year.

WORLD HAPPENINGS BRIEFLY TOLD

Vancouver, B.C., is under serious consideration as the site for the next \$50,000 Wrigley marathon swim, Elwood Hughes, director of the event has announced.
 The Daily Mail, London, Eng., says the Czech-Slovakian minister of the Interior has refused Leon Trotsky a passport visa to permit him to enter that country.

Reports from apparently well-informed quarters in Canton, the Canton government expects the Nationalist government at Nanking soon to launch a military campaign against it.

The addition of the hash to penalties for trafficking in drugs was approved by the special committee of the House of Commons, which is considering amendments to the Opium and Narcotic Drugs Act.

Approximately 35,000 bushels of seed have been graded and sealed under registered grades since the Dominion seed branch of the Department of Agriculture started operations in Saskatchewan at the beginning of the year.

"The recommendations of the Imperial wireless and cable conference, 1928, have been in general accepted by the governments concerned, including the government of Canada," Hon. P. J. Veniot, postmaster-general, stated in the House of Commons.

The Toronto city council has authorized the board of control to call for designs for a memorial to Sir Adam Beck. The memorial is not to cost more than \$25,000, and its main feature is to be a bronze statue of Sir Adam. The monument will be erected on University Avenue, Toronto.

Nobody ever has to take a tonic to create an appetite for fatty.

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—MRS. MILTON McMULLEN, Vanessa, Ontario.

Productivity Of Mosquitoes

One Lone Mosquito Reproduces Billions Yearly, Says Scientist
 The normal productivity of one lone female mosquito in a year is 159,875,000,000 offspring, said Dr. Thomas J. Headlee, chief entomologist of the New Jersey agricultural experiment station, when addressing the annual convention of the New Jersey Mosquito Extermination Association. However, Dr. Headlee said, only 79,875,000,000 of these should be counted as pests, for they are active, buzzing, biting, egg-laying females. The others are mere males which do not bite.

Winnipeg Newspaper Union

362

Popular Bloomer Dress
 One-piece dress with slightly flaring hemline, with not shirring at each shoulder, with attractive applied band with scalloped closing at neckline, made of contrasting fabric. The full-cut bloomers may be finished with elastic at knees or with bands. Style No. 362 is designed for small girls of 2, 4 and 6 years who require sturdy comfortable clothes for play. It is sketched in plain pale blue gingham with blue and white checked contrast. Rose chambray with white pique, printed cotton broadcloth with pique, silk green linen with white, beige wool jersey with brown, and navy blue wool crepe with any bright red polka-dots with bright red wool crepe contrast are interesting suggestions. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Fashion Gazette, showing all the most attractive Paris styles, embroidery, etc.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes—"Several years ago I was troubled with my heart and nerves so bad, at times my hands would become numb and cold. I took doctor's medicine for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble.

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of payment to The T. Milburn Co., Ltd., Toronto, Ont.

Dirigible Flight Delayed

Giant British Craft Not Making Trip To Canada Until July
 The flight of the dirigible R-100 from England to Canada will probably be made towards the end of July, it was learned at the department of national defence. It had been set for the end of May, but technical improvements to the craft are being made which will necessitate delay. Officials of the department regard the flight as one of the most important steps in inter-empire communication so far attempted. Possibility of a route to Australia across Canada is not considered beyond the bounds of possibility.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

What "It" Is
 Perhaps this can be applied generally to all husbands, but a woman in the Wiltshire police court recently defined the word "husband" as a famous woman novelist. The clerk pointed to a man in court and said "Is that your husband?" She replied, "Yes, sir, that's it."

A philosopher is a man who never feels badly after he has made an ass of himself.

QUICKLY
 CARTER'S LITTLE PINK PILLS
 These little pills taken after meals or at bedtime will do wonders, especially when you have over-eaten or are troubled with constipation. Remember they are Dr. Carter's Little Pink Pills. Young and old can take them. All Druggists. Size 25c. and 50c. per box.

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.
 Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.
 The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool.
 Your dealer has both packages.

Diamond Dyes Perfect results Easy to use

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.
 Your grocer, druggist or stationer has Para-Sani in the handy, sanitary, crinkled-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appelford's "Centre Pull" Packs.

THE CRIMSON WEST - BY ALEX. PHILIP

CHAPTER XV.—Continued. For a moment Connie was silent. "When—when my dreams come true," she responded with an embarrassed smile.

Then he told her of the city and its ways and the things people did. She listened, not with amazement, but with a contented smile, as though what he told her was confirmation of her dreams. But when he told her of the grand opera, the music, the costumes and the singing, her grey eyes wide with longing, she sighed deeply.

Donald's voice trailed to a drowsy close; his chest rose and fell regularly, his features relaxed. He felt as though he were floating, exquisitely floating, on a sea of soft, white clouds that were bearing him softly away. A delicious languor enthralled him—an enchantment of dream and dim. He felt himself drifting, drifting... He was asleep.

The willows at the lower end of the meadow were pushed cautiously aside, and Hand's head appeared in the opening. For two days he had lain hidden awaiting an opportunity to waylay Donald. The day after the fight he had boarded the train for the coast, but had slipped from the car at the station below.

His face—unprepossessing at its best—was now a horrible sight. His thick lips were swollen and cracked, the eyes discoloured and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream.

Every hour since the fight Hand's hatred for Donald had grown blacker. He would show him that he, Ole Hand, deserved his reputation as a fighter. He would hold this crippled man helpless while he showered blows on his unprotected face, make him cry out for mercy on his knotted knees, perhaps kill him. His hatred grew hotter and deeper as he watched him lying peacefully beside the girl who had been the cause of the fight in which he had been ignominiously whipped.

Connie sat gazing down on the sleeper. A sudden thought seized her, bringing a warm flush to her cheeks. Why not? No one would ever know. Would she dare? She glanced nervously about her, then leaned slowly over, her curls falling about her face, and touched her soft lips to Donald's cheek.

A bluejay screeched derisively. Connie came to her feet, her face crimson. Donald stirred, opened his eyes, and painfully raised himself. "I'm sorry, Connie," he apologized. "It was very rude of me to go to sleep."

A moment later he walked down the hill. Connie accompanied him a short distance, then turned up a steep path, and from a high, rocky ridge she watched his retreating figure as he turned towards the den. A huge bucket on a cable, that had been used during construction for carrying men and material across the roaring chasm below the falls, still hung above the boiling waters.

For Donald there was a certain thrill, a keen exhilaration, in swinging in mid-air in this crude contrivance. He stepped into the bucket and with his one good arm pulled it along the rusty cable.

at the prostrate body, turned and fled terror-stricken to the woods. Hand hesitated for a moment, then followed heavily after.

At this moment, Connie, with clothes torn and hair dishevelled, broke from the woods, and with a cry of piteous flung herself to the ground by the Bred's side and placed his head on her lap. The eyes of the wounded man flickered slowly open. He tried to speak, but a strong convulsion shook his frame from head to foot and he writhed in desperate agony.

Connie's face as she lifted it to Donald was drawn with grief. "Get me some water please," she said brokenly.

The dying man's lips moved. Connie leaned closer. "I—love you," he whispered faintly. "I—saw him—for you." A ghastly light spread over his features and his lips were widely parted in a struggle for breath. Again his lips moved in a fluttering whisper. "Connie—will—you—kiss me?"

As Connie pressed her tear-wet face to his pain-contorted features relaxed in a smile of wonderful peace and his eyes closed.

When Donald returned Connie's head was bowed and she was weeping softly.

"How is he, Connie?" he questioned gently. "He's dead." Donald removed his hat and knelt with bowed head.

"He died for me," he choked. "And for you, too," she whispered inaudibly.

CHAPTER XVI.

Let us tire of monotony, Nature gives us a change of colour for each of the flowering seasons. Flowers of every hue may be found through the different months. Pink for May, red for June, blue and pink for July, and during August royal robes of gold and purple clothe the hills and valleys.

The last week of August brought to Summit Lake a pageantry of color that the Coast region is denying owing to the persistent rains that retard the ripening of the leaf. The deciduous trees were already withdrawing their life-giving fluid from the leaves to store it in their roots until spring. The willow, vine maple, birch and alder along the creeks, and lake-shore held touches of autumnal colouring; while on the hills the yellowed leaves of the cottonwood were brilliant in their setting of sober dark green tints.

As the red wine of the vine maples, but there was a leafy beauty greater than theirs. The flowering dogwood blazed from every nook and cranny. The ripening of the dogwood gives to its leaves a flame that burns with a fierce glow; a glow that further ripening deepens until its crimson flush becomes the loveliest hue of the British Columbia woods.

The freeweed, or willow herb, that in July gives to the open spaces a gorgeous tint of blue pink, were now losing a flock of seeds to float away like tiny parachutes. Each small bit of fluff held a minute germ of life that would build a plant as large as its parent when, dropped by the friendly wind, it reaches a fertile spot. The stately cottonwoods were sending out a life-raft as tiny as that from the smaller plants. Thistles, cat-tails and asters hurried to join the silted clouds until the air was misty with these germ balloons, seeking their winter's rest. The red elderberry and its magenta neighbour, the thimble berry, with its translucent Scotch cap, gave to the woods a material flame.

A curious timidity had come over the birds; not only were they quiet but their usual haunts. In some retired spots they were moulting. While the weather was at its best, and food was the most plentiful, they were dressing themselves in a new set of feathers for their long flight to the south. The tops of the tall pines were filled with sweet twitterings, chirrings and out in windfalls and quick short flights. A flock of waxwings had gathered for the migration. They would not leave for some time yet, but the change had come. Birds from the north had arrived creeping south by easy stages, taking plenty of time in their journey—the reet creatures that live, staying or going as they feel inclined.

(To Be Continued.)

What League Has Cost Canada. The League of Nations has cost Canada \$1,636,515.70 since its inception to the present, was the reply in the House of Commons to a query by T. L. Church, Conservative, Toronto, N.W.

When a carefully considered plan promises success, never hesitate to take the chance.

Little Helps For This Week

"And Jesus saith unto them, How many leaves have ye?—Matthew xv. 34.

So still, dear Lord, in every place Thou standest by the tolling toll. With love and pity in Thy face. And givevst of Thy help and grace To those who meekly bear the yoke.

The lives which seem so poor and low, The hearts which are so cramped and dull, The baffled hopes, the impulse slow, Thou takest, O Lord, and lo! They blossom to the beautiful.

—Susan Coolidge. "How many leaves have ye?" It is the Lord's first question; and the hands of those who really want His help search their robes to see what they have hidden there. One brings his joy; another brings his pain; another brings his helpless desire; another brings his poor resolution; another has nothing to bring except just his sorrow that he has nothing.

It is a poor collection,—only seven leaves and a few little fishes,—but it is enough: His blessing falls upon them, and they come back to the souls which gave them up to Him multiplied into the means of healthy, holy happy life.—Phillips Brooks.

Savings Certificates Popular. That Alberta Government Provincial Savings Certificates are recognized as a sound investment is indicated by the fact that sales during 1928 reached a total of \$815,960 over and above all withdrawals. The net purchases during the year were more than double those of 1927. A report for the year by the Treasury Department places the total amount of outstanding savings certificates at \$11,264,940. These certificates are held largely by farmers of the province.

"Laugh heartily, speak kindly and serve willingly," are among a list of health rules issued by Dr. W. A. Daley, Hull, England, medical officer.

No Ground For Pessimism. Statistics Show Large Percentage of University Graduates Remain in Canada. An independent survey of figures dealing with the whereabouts of our university graduates is somewhat enlightening in the way of refuting exaggerated statements to the effect that they are flocking to the United States. The latest available statistics show that 82.8 per cent. of the living graduates of the University of Toronto are resident in Canada and only 13.6 per cent. in the United States; the University of Western Ontario has retained 80 per cent., while 95 per cent. of the University of Manitoba's graduates have remained in their native country. This story finds a repetition in almost every college in the Dominion. Moreover, many graduates have found their way elsewhere very temporarily and will return in due course. Evidently there is not so much room for pessimism as many have imagined.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which Canadians experience during February and March is extremely hard on babies and young children. Conditions make it necessary for the mother to keep them confined to the house, whose rooms may be overheated or badly ventilated. The little ones catch cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep him fit, or if a cold suddenly grips him to restore him to health again and keep him in good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little ones. They are a mild but thorough laxative which regulates the bowels, sweetens the stomach; break up colds and simple fevers; banish constipation and indigestion and make the cutting of teeth easy. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Only the office with no salary attached is obliged to seek the man.

To Check "FLU," Gripe

Fights the Germs in the Throat Before They Invade Other Parts of the Body. EFFECTIVE PREVENTIVE MEASURES EXPLAINED.

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's Halitid. It makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

ZIG-ZAG Cigarette Papers. Large Double Book. 500. Avoid Imitations.

Quickly Ease Irritated Throats. BUCKLEYS. 75c. and 40c.

LADIES WANTED—TO DO PLAIN and light sewing at home, whole or spare time; good pay; work sent any distance; charges paid. Send stamp for particulars. National Manufacturing Co., Montreal.

The Northward Trek

Homesteaders Show Preference For Land in Northern Districts. More than half of all the homesteads taken up in Canada last year were in central and northern Alberta; more than one-third were in the Grande Prairie and Peace River land districts. New settlers coming into central and northern Alberta last year increased the population by more than 25,000, while the 8,386 entries represent about 1,872,740 acres of land. The significant feature of all these figures is the northward march of the man intent on taking up land. Much has been said in the last two or three years of the northward trek of the miner, the electrician and the pulp and paper men. But the farmer is heading that way too. And all indications are that 1929 will beat 1928.—Edmonton Journal.

You can't judge a man's status in this country, except to know that he acts important he isn't.

WINDOLITE The Improved Glass Substitute. COMES WITH A MESSAGE OF HEALTH. THE SUN is the all-powerful life producer. Nature's universal disinfectant and germ destroyer. WINDOLITE is the sun's most important ally. Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility. Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that it is also a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds. Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increased the egg-laying capacity and fertility of chickens, and greatly improved the health of cattle and is now being used in domestic and household requirements.

\$30,000.00 IN PRIZES

For Pictures Anyone Can Take

This amount is being given in prizes by The Canadian Kodak Co. Enter as many pictures as you wish. There is no entry charge.

A CASE WHERE EVERYONE LOSES

The following from the Western Canada Coal Review is worthy of reprinting:

"The ending of the long drawn out dispute in the Wayne district once again proves the futility of the strike as an industrial weapon. The tie-up has extended through the most productive months of the year. It has kept coal from several of the Wayne mines off the market at a time when coal was most in demand. The operators have lost tonnage, the men have lost wages and local merchants have lost business, and we cannot see that anyone has gained.

In the first place the trouble arose over certain revised screening arrangements the operators found it necessary to install in order to meet competition. Although the interest of the men was protected, they used the new screens as a bargaining point for demanding recognition of the Mine Workers Union of Canada.

Thus was born the impasse: the operators stood upon the award of the Board of Conciliation. Their unwillingness to acknowledge the M. W. U. C., was not based upon objection to a union so much as that they were not altogether sure of the motives of the union itself.

Both sides stood pat and the mines shut for nearly half a year. Early this month they got

together and made mutual concessions—and the trouble dissolved into thin air overnight which demonstrates that the strike is the most ineffective and inefficient means of enforcing labor demands.

Every strike is eventually settled by discussion and compromise. It would seem therefore, that before a shut down occurs is the time to explore every avenue of compromise rather than to do so after the mines have been idle for months.

Arbitration, continued until a basis of agreement is reached, is the only solution to an industrial dispute. Ceasing work is not, and the sooner this is realized the better for all concerned. Everybody loses and no one gains as the result of a strike, but the loss falls heaviest upon the men, so it is the men who should be the last to talk of downing tools, and the last to give up hopes of an amicable settlement as the outcome of mutual concessions.

ST. ALBAN'S CHURCH, COLEMAN

Evening every Wednesday during Lent at 8 p. m. Choir practice the same day at 7 p. m.

Sunday, March 10, evening at 7 p. m. Vestry meeting at close of the service.

The W. A. of St. Alban's church will hold a daffodil tea, sale of home cooking, candy stall and sale of work on Saturday, March 30, from 2 to 6 p. m., the Saturday before Easter Day.

Personal and Local

Born: To Mr and Mrs Taylor, on March 4 twins, (a boy and girl).

The W.M.S. of St Paul's United Church will hold a sale of home cooking and tea in the club rooms on March 30, from 3 to 6 p. m.

Mr. Elmer Leamer, principal of Macleod school, was the guest of Mr. and Mrs. H. W. Clark over the week end.

Mr. G. R. Powell returned on Monday from Calgary, after spending a few days visiting at the home of his son, Ross. G. Powell.

George Graham is at present staying with his parents here, after having been at Lacombe with his brother Charles since last summer.

Coleman rinks skipped by J. Bell, J. S. D'Appollonia and J. M. Allan, played three rinks at Bellevue last Friday, winning by 39-29.

The Dollar Day sale at Lalet's store last Saturday saw quite a large number of bargains secured by early shoppers.

Mrs. E. V. Peet enjoyed a visit from her father this week, he having called here while on a trip from Vancouver.

The house on Sixth street formerly occupied by Mr. and Mrs. Ferguson has been sold by them to Hugh Dunlop, who with his family moved in during the week.

The prize winners at the K. of P. whist drive last Saturday were Mrs. F. Mary, J. Beveridge, E. Hill, jr., and C. Murdoch. A pleasant dance followed the whist games, with music by Mrs. Salt's orchestra.

Mrs. J. Coates and young son arrived on Monday morning from Liverpool, to live in Coleman, her husband having been working here for the past year. She travelled via the "Adaniana" of the Cunard Line.

Major R. F. Barnes returned this week from several weeks spent at Fort Osborne barracks, Winnipeg. Mrs. Barnes, et al, for several weeks was visiting friends in Manitoba and later in Calgary, returned on Saturday.

Spring is here, by all the signs of the past week. A welcome visitor at The Journal office was Forest Ranger G. A. Ritchie, of the South Fork, well known for his genial good nature and hearty word of welcome to all who visit that part of the country. Mr. Ritchie says there is no fairer beauty spot in the mountains than in the South Fork district, and those who have been there agree with him.

O. E. S. Whiteside, general manager of the International Co., and G. Killock, vice-president of McGillivray Co., are attending the annual meeting of the Canadian Institute of Mining and Metallurgy in Winnipeg. Mr. Whiteside being chairman of the meeting.

Rufi Elder, starring with Richard Dix in "Moran of the Marines" at the Palace, will be remembered as the young lady who attempted an airplane flight across the Atlantic and was forced down in mid-ocean, being rescued with her companion by a tramp steamer.

Miss Margaret Price left on Sunday of last week to commence training as a nurse at the Royal Alexandra hospital at Edmonton. The week prior to her leaving many parties were held in her honor by her girl friends, she having been a pupil at the high school here and very popular.

The salesman of printing from outside does not stay in town any longer than is necessary to grab what orders he can. He purchases nothing from local stores, he pays no business tax or any other tax, and the only money he spends may be for a meal at a restaurant. Money spent in buying printing from The Journal goes back into local business. Local business men look to the local newspaper to help boost local business. Example is the best way to achieve this, and everyone concerned receives the benefit.

The Journal has a list of attractive cuts for Easter advertising which are very effective.

The L.O.R.A. will hold a sale of work and home cooking and tea will be served from 3 to 6 p. m. in the K. of P. hall on Saturday, Mar. 16, 27-2c.

NOTICE RE CHANGE OF BUSINESS

All parties having accounts against the Radio Cafe, Coleman, Alberta, should send them to the undersigned by March 15, 1929, and all monies owing to the Radio Cafe must be paid forthwith. The name has been changed to The New York Cafe, Mah Quong, Proprietor.

Here and There

In 1928 the Canadian Pacific paid out \$2,000,000 from freight revenue in loss and damage claims. In 1927 it paid \$700,000, a decrease of \$1,300,000, although in the same period the gross freight revenue had increased by \$15,000,000. Better freight handling did it.

The stonework and most of the partitioning of the Royal York Hotel have been completed, and there appears to be no doubt that the great building will be open to the travelling public by June 1. This hotel is the largest and tallest in the British Empire.

Some idea of the world-wide area over which the Canadian Pacific operates may be gathered from the fact that in making out its monthly balance it is necessary to turn fifty-nine different foreign currencies into dollars in order to get an accurate result in Canadian money.

Wireless is now being used to aid in the protection of forests against fire. The Ontario Provincial government planes are equipped with the latest apparatus with a radius of 400 miles, so that the headquarters may be readily communicated with and immediate steps taken upon the discovery of an outbreak.

"The principle of rapid freezing has such qualifications that there seems to be little room for doubt that it is going to revolutionize the fishing industry," stated W. Found, deputy minister of fisheries. "We intend to make the experimental station at Halifax of the utmost value to the whole industry."

W. J. C. Madden of Calgary, is making arrangements with the Canadian Pacific Express Company for the transportation of whitefish caught in Great Slave Lake from Edmonton to Chicago. It is intended that the distance from the fishing ground to rail head will be covered in winter by five-ton tractors operating upon the thick ice of the Slave and Athabasca Rivers, traversing country that would otherwise be difficult to cross.

A new and strange form of wildfowl is being imported into Alberta by the Calgary Fish and Game Association, which has arranged to secure 2,000 Mongolian and Chinese ring-necked pheasants. The birds are to be liberated this summer throughout the southern part of the province, where 1800 were placed last season as part of the Game Association's plan for re-stocking Alberta's game bird supply. With all these Oriental birds loose the ancient Yellow Peril seems more imminent.

The Great-West Canadian Folk Song, Folkdance and Handicrafts Festival, to be held at Regina, March 20-23, will not be devoted entirely to the cultures of other than people of British origin, notwithstanding that eighteen different races will be represented. Here we have some of Jean Gauld's pupils in a Welsh Folk Dance. Scotch and English folk-songs and dances will also be interpreted, and the Irish, too.
